Introduction and background

The European Family Justice Center Alliance (EFJCA) works towards an effective and sustainable multidisciplinary collaboration to tackle gender-based violence and domestic violence by providing Family Justice Centers (FJCs) and related multidisciplinary models with the knowledge and tools to maintain high quality standards in line with the EU values as laid down in Art. 2 of the Treaty on European Union and the EU Charter of fundamental rights.

To improve and strengthen the multidisciplinary approach of gender-based violence (GBV) and domestic violence (DV), the EFJCA invites in 2025 within the EU program Financial Support to Third Parties (FSTP) their European member organisations to submit proposals within the call 'Grants to support and develop multidisciplinary centers on GBV and DV'. The grants will support the (further) development of new and existing FJCs and related multidisciplinary models and improve their work towards a victim/survivor-centered and trauma-informed approach and create pathways of hope and empowerment.

This call for proposals describes the objectives, expected results, maximum amount of regranting to eligible organisations and proposed activities. It further describes the selection procedure and reporting mechanism for the management of the regranting by the EFJCA.

Objectives

The main objective of the re-granting is developing, implementing, improving and strengthening safe places in European countries for victims/survivors of gender-based violence and domestic violence, places where all the needs of the victims/survivors are met; their safety is assured; children are protected and perpetrators are held accountable, in accordance with the provisions of the Istanbul Convention. This will be done through the funding of projects which aim to:

- Stimulating the development and establishment of new FJCs and related multidisciplinary centers (start-up/how to start).
- Embedding good and evidence-based practices within existing FJCs and related multidisciplinary models with the aim on further professional development and capacity building.

The re-granting will increase knowledge on and implementation of EU law and policy, the Istanbul Convention and the EU directive on combating violence against women and domestic violence (2024/1385) at national and local level. It will provide members with the means to improve their work in line with EU values.

All proposals are expected to contribute to achieving at least one of the following objectives:

- Strengthened capacity to protect and promote EU rights and values.
- A more supportive environment for Civil Society Organisations (CSOs) and rights defenders such as national human rights institutions.
- Better-developed advocacy and watchdog role of CSOs.
- Increased involvement of CSOs in policy- and decision-making processes with local, regional, and national governments.
- Increased citizen awareness of EU rights and values.
- Strengthened regional cooperation within civil society.

In the application the applicant has to clearly state which objective or objectives their project aims to address.

Expected results

Depending on the chosen activities and assignments within the submitted and approved projects, the expected results can be distinguished according to:

- Expansion and strengthening of multidisciplinary cooperation in a region and/or partnership regarding the approach to GBV and DV, including the aim of (further) developing FJCs and related multidisciplinary centers. This includes project whereby the sustainability of the new and existing centers is more guaranteed.
- The embedding of good practices in the FJCs and related multidisciplinary centers, providing stronger and substantiated help and guidance to victims of GBV and DV.
- The stronger involvement of Voices and survivors in the local operation of FJCs and related multidisciplinary centers and the development and embedding of programs that empower victims, with the aim of making this a strong offer in the FJCs and related multidisciplinary centers.
- The specific development of target group-oriented approaches, so that tailor-made interventions can be offered in the FJCs and related multidisciplinary centers.
- Improved awareness and more detailed help for specific and severe forms of GBV and DV, such as intimate terrorism and non-fatal strangulation, so that victims of these forms receive the specific attention and multidisciplinary approach they need.

Activities that can be funded

Activities that are eligible to receive funding are:

- Development and establishment of new FJCs and related multidisciplinary centers.
- Embedding good and evidence-based practices within existing FJCs and related multidisciplinary models.

- Capacity building.
- Programs on sexual violence and collaboration with services specific for sexual violence.
- Programs for involving and empowering victims/survivors and organizing peer-group-support.
- Working on sustainability: design of a process by which long term strategy both policy-wise, organizationally, financially as well as the development of the services, are to be worked through, with a professional policy making specialist to guide this process.
- Organizing stakeholder-meetings, conducting a local survey and setting up the process towards multidisciplinary approach for starting centers.

Due diligence

Additionally, as part of the selection process, a due diligence process, including adherence to EU values, could be carried out. The eventual signature of a grant agreement may be subject to this due diligence process, including requests for additional information to facilitate transparency.

The due diligence process can include a review of the applicant organization's online presence, including its social media channels and the social media channels of its key personnel and trustees/board members, and verification of other sources available in their Member State, including annual reports, state registers, etc., as well as engaging on a dialogue with the concerned organisation.

Legal and financial set-up of the Grant Agreements

If you pass evaluation, your project will be invited for grant preparation, where you will be asked to prepare the Grant Agreement together with the EU Project Officer.

This Grant Agreement will set the framework for your grant and its terms and conditions, in particular concerning deliverables, reporting and payments.

All grantees will be required to sign a Declaration of Honour, a draft which is available here to ensure respect and adherence to EU principles and values.

Starting date and project duration

The project starting date and duration will be set in the Grant Agreement. The maximum duration of projects is 8 months, from May 2025 to 15 December 2025.

Milestones and deliverables

Applicants will need to set indicators and deliverables in their application. The indicators and deliverables for each project will be managed through the Online Grant Management System and will be reflected in the Grant Agreement.

Grantees will have to ask attendees in events to participate in the EU Survey on Justice, Rights and Values. This survey allows the granting authority to monitor training, mutual learning and awareness-raising events closely. The beneficiaries will receive a weblink to the survey, to be forwarded to the attendees. They will have access to the survey results for their project and can use them for their project evaluation.
